

## Follow-Up to Screening: How We Can Support Your Child

Why did we have you complete a questionnaire about your child's development?

Our goal is to help young brains and bodies develop and grow to their fullest potential. These support services can help prepare your child for kindergarten and beyond.

National recommendations call for specific tools to be used to assess a child's development, such as the one you completed. This tool helps identify kids who may be at-risk for delays. It is important to identify these delays early, as there are services that can address them.

Based on the results, we are referring your child to the services checked below:

### Early Intervention (EI)

EI helps babies and toddlers with their development in your area, Linn, Benton, Lincoln Education Service District (LBL-ESD) runs the EI program.

EI focuses on helping young children learn skills. EI services enhance language, social and physical development through play-based interventions and parent coaching. There is no charge (it is free) to families for EI services.

What to expect if your child was referred to EI:

- LBL-ESD will call you to set up an appointment for their team to assess your child.
- If you miss their call you should call back to schedule a time for the evaluation. They have a limited time to set up the appointment. Their phone number is: (541)
- The results from their assessment will be used to determine whether or not EI can provide services for your child.

## Medical/Therapy Services

Your child's health care provider referred you to the following:

- **Speech Language Pathologist:** Specializes in speech, voice, and swallowing disorders
- **Audiologist:** Specializes in hearing and balance concerns
- **Occupational Therapist:** Specialize in performance activities necessary for daily life
- **Physical Therapist:** Specializes in range of movement and physical coordination
- **Developmental-Behavioral Pediatrician:** Specializes in child development areas including learning delay, feeding problems, behavior concerns, delayed development in speech, motor, or cognitive skills
- **Child Behavioral Health Services:** Specializes in mental health assessments, individual/family/group counseling, skills training and crisis intervention
- **Autism Specialist:** Specializes in providing a diagnosis and treatment plan for children with symptoms of Autism

## Why did you sign a consent form?

As your child's primary care provider, we want to be informed about the care your child receives so that we can provide the best care possible. The consent you signed allows the programs to share information back to us. Different programs have different consent requirements. You will likely be asked to sign more of these to give permission for different providers to communicate about our child's care.

## Any Questions?
