Mapping Medical Developmental Screenings Ages 0 – 3 in Linn, Benton and Lincoln Counties

1. Physician Name
2. How many children do you see in a month for well child checks age 0 – up to age 3?
How many age 3 to age 5?
3. How many of those receive a developmental screening, age 0 up to age 3? How many age 3 to age 5?
4. Do you know where to refer if you have a child that shows delays?
5. Which developmental screening do you use?
6. Have you received training in using the Ages and Stages Questionnaire - 3 (ASQ-3) in the past 2 years?
7. Have you received a developmental screening that was conducted outside of your office?
8. Would you like to receive screenings from medical providers outside your office?
9. Would you like to receive screenings from non-medical providers outside your office?
10. Do you prefer to receive electronic or paper ASQ-3's?
11. Are you aware that you can bill for a developmental screening using code: 96110?
12. Would you like a training on the ASQ-3?
13. Would you be willing to take additional survey's?

EARLY LEARNING HUB

of Linn, Benton, and Lincoln Counties

Dear Medical Provider;

The purpose of this letter is to ask you to complete the attached survey regarding Developmental Screenings for children ages 0 to 36 months. Developmental screening aids in the identification of children at risk for a developmental, behavioral or social delay. The screening is an element of well-child care at standardized intervals and is required to be covered by insurers. Developmental screening is also administered by many early learning professionals such as home visitors, Head Start providers and child care providers. Oregon is working toward standardizing and coordinating screening practices across health and early learning. As an Early Learning Hub, we are working to facilitate this process. By answering the attached survey you will assist this effort.

Thank you,

Lynn Hall
Project Manager
