

Early Learning Hub of Linn, Benton & Lincoln Counties

Health Care Integration Work Group Meeting Minutes

MEETING COMMENCED	1:00pm, July 25, 2018 CASA of Linn County, Albany
MEETING CALLED BY	Lynn Hall
WORK GROUP MEMBERS PRESENT	Shirley Blake, Rich Waller, Cindy Cole, Cindy D'Angiolillo, Miranda Miller
VERSION	Final

Agenda topics

DISCUSSION ITEM	Referral and Resource Flow Chart, Decision Tree, and Parent Letter
	This letter is intended for primary care providers to hand to a parent if there is needed follow-up based on the ASQ results.
	Each section needs clear instructions for the parent.
	Miranda Miller explains that Samaritan primary care providers refer the child.
	Samaritan Corvallis has a robust referral center. The primary care providers prefer to work directly with the services they are referring instead of going through Pollywog.
	There are obstacles with ASQ completion and billing.
	This document needs to be integrated into the EMR.
NEXT STEPS	
	Revise the phone numbers.
	Delete the agencies Pollywog accesses.
	The group decides to hold off on revising the parent letter at this time. Lynn will explore requirements with Kristi and state contacts.
	Miranda agrees to resend the comments on the medical decision tree.
	Miranda agrees to take the letter back to Samaritan pediatricians for review once it is ready.
	This document needs to be integrated into the EMR.
	Lynn agrees to introduce Miranda, LeAnne, and Kristi to have a discussion about the RHIC.

DISCUSSION ITEM	Strategies to Improve Immunization Rates
	Nadine from Boost Oregon, Lynn Hall, Jennie Hartsock, and Cindy D'Angiolillo have a conference call on July 31 st to discuss hosting provider workshops to train providers/home visitors in the parent discussion of immunizations.
	Cindy wants to bring a Boost Oregon provider training to Samaritan in Corvallis. Miranda invites a Boost Oregon trainer to conduct a training at a future general membership meeting through Samaritan. Miranda agrees to reach out to Albany and Lebanon.
	Samaritan took a proactive approach by creating a report that projects 6 months ahead for immunization due-dates per OHA guidelines, and if they are being met. Samaritan runs the report and helps get children in for their immunizations before their second birthday.

One Samaritan family medicine provider sees a 14% no-show rate. Reports show most no-show patients are from coastal communities and Linn county populations.

Consider Boost Oregon provider trainings with OBGYN personnel and maternity care coordinators.

NEXT MEETING	August 29, 2018
1:00pm, Western Title Building, Newport	
MEETING ADJOURNED	2:40pm
